3. Introduction

The purpose of this document is to guide you to integration TRAKPAK into your Linnworks.Net system. This fulfilment service will allow you to manage your orders efficiently and effectively ruling out any third-party service involvement.

We hope that this step by step guide will allow you to integrate your Linnworks accounts with TRAKPAK at comfort and are glad to have you on board as a customer.

4.How to Integrate your Linnworks Account

Click on the installation link below or paste in your web browser running linnworks.net

<https://apps.linnworks.net/Authorization/Authorize/40250234-8ab3-4c0c-8ed9-cb50c0083f3e>

You should now see the screenshot below asking you to allow TRAKPAK to authorise access to your linnworks account.

Please login and agree to the terms and conditions

Please specify an Account name , you can use your P2P account code if you wish

Add TRAKPAK Shipping Integration

Please enter account name for your own reference. This should be a unique name to help you to identify integration within the system.

Account Name:

The next Dialogue box will prompt you to enter your API key,

You should have the API key given to you or please request this information from P2P IT support.

The screenshot shows a configuration window titled "Shipping Service - Configuration - TRAKPAK - P2P". Below the title bar, there is a blue header with the text "Enter your TrakPak account details below". Underneath, the text "TrakPak account details" is displayed. A label "API Key:" is followed by a red-bordered text input field. To the right of the input field is a small information icon (an 'i' in a square). At the bottom right of the window, there are two buttons: a blue "Next" button with a checkmark icon and a grey "Cancel" button.

Once the above has been entered, TRAKPAK is now installed on your Linnworks system.

5. Selecting your Service

Your Account/Sales manager will know the Service you will be using, please contact them to confirm the correct Service Code for your account.

Please select your service by clicking the button on the right of the integration

Add your service as per below respective screenshots and finish

Shipping Service - Services - TRAKPAK - P2P

TPWW - TRAKPAK Worldwide

Service Code	Service Name	Group Name	Linworks Service	Status
TPWW	TPWW - TRAKPAK Worldwide	TRAKPAK	<input type="text" value="TPWW - TRAKPAK Worldwide"/>	New <input type="button" value="Edit"/> <input type="button" value="Properties"/> <input type="button" value="Delete"/>

Your linnworks integration is now fully installed and functional. We ask you to please “data test” the integration and create dummy shipments to test the flow of data.
